

happython.com 😊

**An evening between friends, with a little to drink of course. One of them accompanies you back to your taxi, one of the ones with whom you share the same complicity and sensitivity. And on a goodbye you steal a kiss from him, instead of an ordinary see ya soon . A kiss that lasts for a little while, a kiss he returns. The kind of kiss that makes you smile each time you think about it again and makes you happy.**
